AN ECOLOGICAL
AND ECONOMICAL
SOLUTION

SaniZorb

Make your future **GREENER**

Sanizorb is a new generation of maternity mats for piglets. Made from 100% recycled natural fibre, it is a “green” alternative to conventional rubber, nylon or plastic mats. Environmentally friendly, it is also easier to use than conventional mats. SaniZorb is biodegradable and can be easily disposed of in the manure pit.

FEATURES & BENEFITS

-  **Improves piglet survival rate**
 - Reduces risks of illness and injuries
 - Controls and reduces bacterial growth
 - Reduces risk of fractures due to its anti-slip surface
-  **Reduces labour, cleaning, and chemical costs**
 - Maintenance free and easy handling
 - No chemical sanitization required
-  **Helps control the ambient temperature in the maternity ward**
 - Blocks colder air circulated from the scupper beneath
 - Dries piglets quicker due to warmer temperatures
-  **Allows a better control of the birth process**
 - Once all piglets have been delivered, the placenta will fall to and remain on the mat clearly indicating that the birth process is complete and therefore avoiding the need for a manual search.
-  **Easy to use**
 - Lightweight enabling easy placement
 - Ideal size, no cutting of mats is required
-  **Biodegradable**
 - The mat can be disposed of after use in the manure pit where it will disintegrate

DIMENSIONS

37,5 cm X 52,75 cm
(14,75" X 20,75")
